PROFILE

Experienced MERN Developer with a strong focus on front-end development. Proficient in React.js and Next.js for building dynamic and responsive user interfaces. Skilled in Node.js and Express for creating efficient server-side logic and APIs. Adept in MongoDB for database management. Well-versed in UI libraries such as Material-UI, Tailwind CSS, Bootstrap, and Styled Components, allowing for the creation of visually appealing and user-friendly designs. Additionally, experienced in utilizing SCSS for advanced styling capabilities. A dedicated and detail-oriented developer who thrives in collaborative environments and is committed to delivering high-quality, performant, and engaging web applications.

WORK EXPERIENCE

Front End Developer

Gro-Technologies

Sep 2022 to present

- As a professional web developer at Gro Technologies, I create a dynamic web presence using React (Next.js 13), meeting the highest industry standards.
- I utilize design frameworks like Material UI, Tailwind CSS, and Styled Components to create visually stunning and user-friendly interfaces.
- I implement a fully responsive design to ensure a seamless user experience across all devices.
- I establish a strong connection between the website and backend APIs, fetching and rendering data efficiently to provide up-to-date and relevant information.
- I am dedicated to delivering a top-tier website that reflects our company's brand identity, engages our audience, and drives our business objectives.

Front End Developer

techstirr

Jan 2022 to Sep 2022

- Developed and maintained web applications using React.js and Next.js, ensuring functionality and performance.
- Collaborated with the team to design software solutions meeting client requirements and business objectives.
- Integrated external APIs to enhance application functionality and user experience.
- Resolved complex technical challenges with innovative solutions.
- Actively participated in code reviews, ensuring high-quality code delivery.
- Demonstrated effective communication skills in cross-functional team collaboration to meet project deadlines.
